FlexPackPRO®

PREMIUM TTO SYSTEMS
BUILT BY TTO EXPERTS.

Every system we build is the culmination of over 25 years of dedicated thermal transfer printing technology experience. We know what it takes to deliver the highest-quality, most reliable TTO performance in any packaging environment.
ADDITIONAL SOLUTIONS ALSO AVAILABLE

130 SERIES
32mm TTO CODERS

- 32mm (1.3") wide, 300dpi Printhead
- Continuous & Intermittent Motion
- Perfect for "small footprint" expiration dates and lot codes
- Economical digital upgrade from hot stamp printers and roller coders
- Recommended for both packaging machines and labelers

THE FINEST REGIONAL REPRESENTATION

More than 200 professional marking and coding sales engineers and technicians across the country make sure your experience with FlexPackPRO® brand TTO equipment is nothing short of exceptional.
We've got you covered.

TRAVERSING TTO

TTO PRINTERS FOR MULTI-LANE PRINTING & CODING

Available with a 32mm (1.36"), 53mm (2.1") or 107mm (4.2") wide printhead, the FlexPackPRO® Traversing TTO system prints high-resolution codes, text and graphics on multi-lane packaging machines.

Perfect for thermoform, fill and seal machines requiring multiple images across the packaging film web, these units print up to 40" across in one sweep. Available with both standard and X-Y motion (multi-row) mounting systems.

AVAILABLE MODELS	
TRS-1304	32mm (1.3") x 400mm (15.75") PRINT AREA

ALL UNITS INCLUDE OUR DURABLE, USER-FRIENDLY 7" STAINLESS STEEL TOUCH-SCREEN CONTROLLERS!
THE FLEX™

TTO-MOUNTED UNWIND-REWIND SYSTEMS

Capable of accommodating film rolls of up to 400 or 600mm wide, the FLEX makes it easier than ever to reduce preprinted flexible packaging inventory with a custom built, TTO-mounted, high-speed unwind-rewind system. One or two individual printers are mounted in brackets and can be positioned to print variable information, graphics and barcodes at different locations across the web of the roll, allowing you to customize generic packaging film on-demand.

FLEX 400™
IN ADDITION TO FLEXIBLE PACKAGING, YOU CAN PRINT ROLLS OF PRESSURE SENSITIVE LABEL STOCK AND TAG STOCK TOO!

Virtually anything that comes on a 3" I/D roll and has a suitable surface can be printed with high resolution barcodes, text and graphics.

FLEX 600™

AVAILABLE MODELS			
130cL	32mm (1.3") x 250mm (10") PRINT AREA	**420cL**	107mm (4.2") x 250mm (10") PRINT AREA

ProCode™
PROFESSIONAL

FlexPackPRO's full-featured coding design software, ProCode™ Professional, is included **free-of-charge** *with every FlexPackPRO® TTO System.*
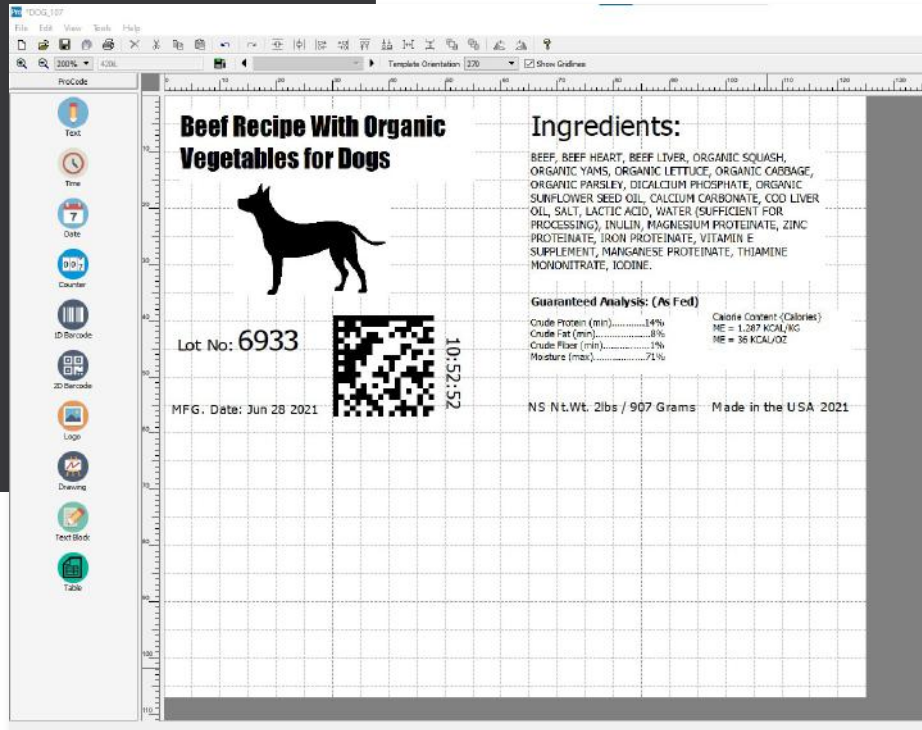

Our feature-rich, user-friendly, **Windows®-based software** enables you to easily create everything you'll need in your package coding environment. From standard **expiration dates and lot codes**, to **linear and 2-dimensional barcodes**, to **high-resolution logos and graphics**, ProCode™ does it all. Compatible with other software too.

BUILT
TO LAST.

Our equipment is so rugged and reliable, we back every sale with an unbeatable 18-Month Warranty. Our engineers insist on using only the highest-grade materials and components, and our vertical manufacturing protocol ensures the tightest compliance to specifications. The end result?

LESS DOWNTIME.

- **UP TO EIGHT TTO PRINTERS** OF THE SAME MODEL CAN BE RUN FROM ONE CONTROLLER

- WORKS WITH INTERMITTENT OR CONTINUOUS UNITS

- STAINLESS STEEL CONTROLLERS FEATURE 10.1" FULL-COLOR TOUCHSCREENS, WITH 1280*800 PIXEL RESOLUTION

- CONNECTIONS VIA USB, ETHERNET (LAN, WIFI), OR RS232/485 SUPPORTED

FLEX tij
CHANGING THE GAME™

FLEXtij™ Thermal Inkjet printing systems have been designed to deliver advanced, dynamic flexible printing options that keep up with the constantly shifting demands of traceability requirements and the ever-changing advancements in flexible packaging substrates and coated surfaces.

EXPERIENCE THE FLEX tij DIFFERENCE

+ PRECISION CODING AT EXTRAORDINARY SPEEDS

+ HIGH-RESOLUTION PRINTING ONTO CARTONS, POUCHES & MORE

+ EXTREME RELIABILITY

+ TREMENDOUS BUILD QUALITY

+ LOWER COST OF OWNERSHIP

+ MORE UPTIME

+ USER-FRIENDLY

+ **DURABLE RESIN INK FORMULATIONS**

FLEXPRINT
THERMAL CONSUMABLES

SUPERIOR QUALITY AT A TERRIFIC VALUE

FLEXPRINT™ Thermal Transfer Ribbons & Printheads are guaranteed to deliver superior print quality on the broadest number of materials. Engineered to exceed the performance of other TTO brands, FLEXPRINT™ has your Best-in-Class ribbon & printhead solutions for PouchMark®, FlexPackPRO®, Markem-Imaje®, Videojet®, and other leading TTO brands.

WITH A VARIETY OF COLORS AVAILABLE

POUCHMARK® | **FlexPackPRO®**
Thermal Transfer Overprinting

OUR STORY

Founded in 2014, FlexPackPRO was established by a group of on-demand printing veterans, each with 20-30 years of thermal transfer printing experience.

There was a powerful need for better-built, lower-cost Thermal Transfer Overprinters (TTO) for in-line packaging machine and labeler applications. We introduced our first few printer models at Pack Expo 2014 in Chicago, and have continued investing in product development ever since.

FlexPackPRO now boasts the world's broadest and best-built line of TTO printers, backed by the industry's longest standard warranty (18 months). Represented by a highly-regarded network of established, well-trained marking and coding equipment distributors, FlexPackPRO offers local support throughout North America.

In 2016, our Innovations Department rolled out our first stand-alone "TableTop TTO" system, for manual on-demand variable printing. This innovation spearheaded a massive multi-year development effort to bring even more sophisticated off-line systems to market.

Recognizing the explosive growth in the pre-formed pouch market, and the frustrations users were having meeting ever-changing labeling requirements, we established PouchMark, an independent unit of FlexPackPRO, to introduce our ground-breaking FLOW line of pouch and flat box feeding and printing systems. A game-changer for so many companies in so many industries. The success of this roll-out was followed by the introduction of our premium high-capacity pouch feeding and printing system, the EDGE.

In 2023, FlexPackPRO once again disrupted a well-established market. TIJ (thermal inkjet) technology had been "stuck in the mud" in terms of substrate compatibility, print speed, image resolution and ink durability. Enter FLEXtij, our proprietary thermal inkjet printer and resin-based ink technology, capable of blowing past all previous benchmarks.

Operator satisfaction, dependable system performance, higher productivity and lower costs form the foundation of our corporate mission. We love what we do, and want you to love what we do for your operation.
